

In 2004 the U.S. Department of Labor reported more than 4 million work related injuries in the U.S. The absence of skilled workers leads to a decrease in productivity and quality of production. Companies are confronted with the costs associated with replacement workers, lost time and injury management.

WHAT WILL WE DO FOR YOU?

INSURANCE CARRIERS/ CASE MANAGERS

■ **Functional Capacity Evaluations**

that clearly outline the injured worker's current physical abilities as well as consistency of effort. Should the worker need further therapeutic interventions, time-specific recommendations are offered.

■ **Outpatient therapies and work conditioning** that emphasize returning the worker to his/her employment as quickly and safely as possible. All treatments are active, aggressive and work-oriented.

■ **Clear, concise and timely written documentation** for outlining objectively a worker's current status, recommendations for a safe return to work and compliance/motivational indicators.

INTERVENTION

- Aggressive Outpatient Physical and Occupational Therapy
- Functional Capacity Evaluations
- Work Conditioning/Work Hardening

In Our Clinic you will find *compassionate and dedicated staff, a commitment to help injured workers to return to work quickly and safely and the highest quality and most cost effective industrial rehabilitative services in the region. We will partner with you, providing personal and customized service throughout the return-to-work process.*

■ **Open setting** that welcomes case managers to meet with their clients and confer with the treating or evaluating therapist.

EMPLOYERS

■ **On-Site ergonomic analysis specialists** to assist with workstation design, functional job description development, and modify duty assignments.

■ **Develop functional pre-work screening** that adheres to ADA guidelines and detects those individuals unable to carry out the critical physical functions of their work.

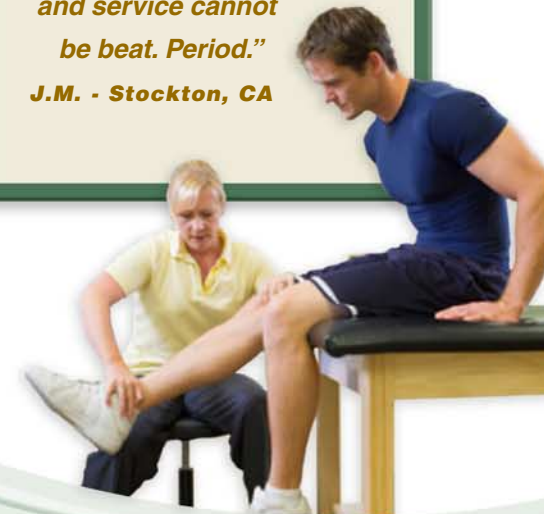

"This place has always shown professionalism, kindness and the human side to their clients. We have been able to achieve our goals."

S.H. - Stockton, CA

"The staff personality and service cannot be beat. Period."

J.M. - Stockton, CA
